Tekkit SMP

Address: TekkitSMP.SiriusMC.net

Description: Designed as an upgraded edition of Tekkit 2, and a continuation of the classic Technic Pack SSP modpack from the earliest days of Technic, Tekkit SMP is a modpack that was originally meant to be, with a nostalgic host of both technical and magical mods at your disposal.

Tekkit SMP contains the full range of mods from Tekkit 2, plus the mods that were dropped in the transition from Technic SSP to Tekkit: mainly Thaumcraft, Mystcraft, and Mo' Creatures. The new Tekkit SMP expands on that with various carefully selected Thaumcraft and Mystcraft addons, alongside Mo' Creatures Extended, and smaller additions such as Re-Crystallized Wing. Electro-Magic Tools is another starring mod, being an addon to both Industrial Craft and Thaumcraft, combining the worlds of tech and magic.

All The Mods 9

image.png

Address: ATM9.SiriusMC.net

Description: ATM9 has over 400 mods and countless quests and a built in proper endgame. Can you craft the ATM Star? Do you dare take on the Gregstar?

All the Mods started out as a private pack for just a few friends of mine that turned into something others wanted to play! It has all the basics that most other "big name" packs include but with a nice mix of some of newer or lesser-known mods as well.

In All the Mods 9 we will continue the tradition adding many new mods while going for more stability.

Does "All the Mods" really contain ALL THE MODS? No, of course not.
