Version 1.2.6

Hotfix update!

Just updated 5 mods to their latest version, which include a fix to the Oil Fabricator crash, improvements to fluid handling via Fluidlogged API v3, and world map rendering.

Version 1.2.5

Changes:

- Added the Nothirium + Naughthirium mods, which together improve the rendering performance drastically.
- Also added the Classic Fabricators mod, bringing back the fabricators from the original Tekkit, and the Modern Beta Forge Release Plus mod, which adds more classic world generation presets, including Release 1.1 which is quite close to 1.2.5.
- Updated 19 mods to their latest versions, which include some particularly useful new fixes and features, including better world map rendering!
- Minor configuration improvements.
